WARREN SHINN'S PRICES

70 HOPKINS ST. WOODBURY NEW JERSEY PHONE 2-1090.

I would advise you to read carefully the prices quoted in many highly illustrated catalogues and then refer to my prices quoted below. Note the difference in my favor. There is a great demand for Hybrid Cultivated Blueberry plants. Blueberry plants are being planted all over the United States. AS high as \$1000. per acre is the usual income from Blueberry cultivation. New Jersey is the home of the Cultivated Blueberry. The acreage of bearing fields of Blueberries in N.J. is larger than the combined acreage of Blueberries growing in the U.S. Therefore, N.J. is the proper state in which to purchase BLUEBERRY plants. There are many States growing only a very few acres of this extremely Profitable berry. Therefore, the present time is opportune for planting in many States which are now growing only a small acreage. Start now and reap the harvest. It will pay you to buy your cultivated Blueberry plants in sections of the U.S. which are native to these plants. In N.J. the wild bushes flourish to a great extent, which soil is perfect for producing Nursery grown HYBRID CULTIVATED 'BLUEBERRY PLANTS' for sale. Varieties Jersey, Rancocas, Rubel, Cabot, TWO YEAR Doz. \$6.00. Per 100 \$32.00. THREE YEAR Doz. \$8.00. PER 100 \$38.00. FOUR YEAR Each \$1.50 Doz. \$10.00. 100 \$45.00. THESE FOUR YEAR PLANTS 4 FEET HIGH.

All two year old Blueberry plants and over bear the same year as planted.

The new varieties are making a very marked impression as follows:

WEYMOUTH early, ATLANTIC medium, BURLINGTON late, PEMBERTON medium.

Two years WEYMOUTH, PEMBERTON, BURLINGTON, ATLANTIC, \$1.00 each. \$8.00 doz.

Three years BURLINGTONS, \$1.50 Each \$15.00 doz. Four years \$2.00 each \$18.00 doz.

.....
